Subscription Department
American Journal of Chinese Medicine

continued from inside front cover

The following technical rules should be strictly followed in the preparation of text:

(a) *Manuscripts* should be typewritten, double spaced, on paper 8½ x 11 inches in size, with wide margins. The original and two xeroxed copies, including three sets of figures and tables, should be sent to the Editor:

Frederick F. Kao, M.D., Ph.D.

**State University of New York, Downstate Medical Center, Box 124
450 Clarkson Avenue, Brooklyn, N.Y. 11203**

(b) *Title page*—Full title, list of authors, Institute, laboratory, or clinic of origin, running title and mailing address should be included.

(c) *Abstract*—An abstract not exceeding 100 words, should be included and typed on a separate sheet.

(d) *References* in the text to literature cited should be numbered serially in brackets and should be confined to published works that are directly pertinent. At the end of the text, on a separate sheet, references should be listed by number, in the same order as they appear in the paper, with full titles. Abbreviations of the journal names should follow the style of, *Chemical Abstracts*, List of Periodicals, Vol. 55, 1961, e.g.

Smith, J.J., and Goldberg, S.S., The significance of acupuncture in treating pains, *Journal*: 1—10, 1973.

(e) *Legends* for illustrations and footnotes should be typed on separate sheets, double spaced. Footnotes are to be consecutively numbered in superscript throughout the text, and should be used as sparingly as possible.

(f) *Figures*—Clear, glossy, unmounted photographic prints of figures, no larger than 8½ x 11 inches, should be supplied in duplicate with special attention to sharp focus and contrast to guarantee clear reproduction. The figures should be ready, in all respects, for direct processing. They must be prepared by a professional draftsman, and the lettering and symbols should be large enough to reproduce legibly after reduction. On the back of each print, mark with pencil the names of authors and the total number of figures on top of the figure.

(g) *Tables*—Whenever feasible, photographs of tables should be prepared.

(h) *Charges to authors*—Exceptionally numerous illustrations or elaborate tables will require special arrangement with the publisher for sharing the cost of reproduction. Color figures or plates will be accepted only at the author's expense for engraving, printing and handling.

(i) *Reprints*—Reprints can be ordered in excess of 100 and a purchase order form is included with galley proofs.

(j) *Terminology*—All terms used in submitted manuscripts should be in accordance with the nomenclature set by the Committee on Nomenclature of the American Journal of Chinese Medicine. Non-conformity with the standard nomenclature could delay the publication of the article. Consult Volume I, and other issues, for the standardized nomenclature. When in doubt, write to the American Journal of Chinese Medicine for further information. The Editor reserves the right to alter non-standard terminology in all manuscripts.
